PEDUCE YOUR GAS BIMES BY USING KIDDEN'E

It Regulator.—The Metropolitan Hotel, after an entended
trial of this invaluable machine, thus speaks of its qualities;
We are using Kidder's Gas Regulators in the Metropolitan
Hotel with entire success. Hefore their introduction we
found it quite impossible to control the pressure at a uniform gauge, as the great length of pipes and the large numform gauge, as the great length of pipes and the large numform gauge, as the great length of pipes and the large numform gauge, as the great length of pipes and the large numform gauge, as the great length of pipes and the large numform gauge, as the great length of pipes and the large numtights to burn with perfect precision, never varying, giving
a clear, steady, still light. Even when any number of burnere are raddenly stilinguished, we notice no change whatever. And in regard-to the consumption of gas, (bring the
largest sommers in the Usfted States), they save us more
than tweaty-five per cent. We obserfully recommend them
as invaluable, and in fact believe no consumer can de without them.
